

Unit 13: Number Sense

Quiz (Lessons 59–60)

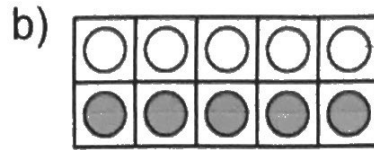

Name: _____

Date: _____

1. Write an addition sentence for the double.

$$\underline{6} + \underline{6} = \underline{12}$$

$$\underline{5} + \underline{5} = \underline{10}$$

2. Double, then add 1.

a) $7 + 7 = \underline{14}$
so $7 + 8 = \underline{15}$

b) $6 + 6 = \underline{12}$
so $7 + 6 = \underline{13}$

3. Double, then subtract 1.

a) $5 + 5 = \underline{10}$
so $5 + 4 = \underline{9}$

b) $9 + 9 = \underline{18}$
so $9 + 8 = \underline{17}$

4. Write how many more. Find the double. Add.

$11 + 10$ is 1 more than $10 + 10$

$10 + 10 = \underline{20}$ so $11 + 10 = \underline{21}$
